

BREAKING NEWS – As advised by The Echo

The Burges Estate Residents Association are pleased to announce that following the intervention of our Independent member councillors on BERA, the Leader of the Council, John Lamb, will announce in the Echo on Monday that he is prepared to finance the building of the health centre in Shoeburyness. This is terrific news for our members in Shoebury, and we would like to thank John Lamb for listening to the proposals that our member councillors in Thorpe Bay and Shoeburyness suggested, to fund the building of this health centre, which is long overdue. As yet we are not sure whether he will fund the health centre in St Lukes, but we will keep pushing for this to happen also. Once again it seems that BERA, through our membership, can achieve great things for Southend-on-Sea.
