

1. BERA sponsored coffee morning

The next coffee morning is being held on Thursday 14th September 2017 from 10.00am-12 midday at The Methodist Church, on the corner of Johnstone Road and The Broadway. Come along and bring a friend.

2. Rogue Traders

Please be careful about letting cold callers do any work for you. Always get at least three quotes for work, and references if possible, so that you can be sure you are using a reputable company. We also do not recommend you buy any goods from door to door sales people.

3. Southchurch Park

The campers in Southchurch Park have now been moved on, so everything is back to normal.

4. St Augustines Church grounds

As requested by residents, Mike Stafford will be meeting with council officers next week to discuss the planting of shrubs and plants around St Augustines Church, to improve the shrub garden. If any residents would like trees or shrubs to be planted near their homes please contact us. Those residents that have notified us over the last year are already on our list and should hopefully something happening over the winter period.

5. Park Lights and Bins

We have been chasing the Council and found out that Southchurch Park lights are still planned as part of the LED upgrade, and along with new waste bins along Thorpe Bay Gardens, should be replaced by the end of this year.

6. BERA social meeting

We are hoping to hold a social evening on a Tuesday in mid-November. This will be for a general discussion where you can raise any concerns you may have with your local councillors or members of the Committee. We will let you have a definite date and time once it is confirmed.
