## **Sustainable Warmth grant can help Southend residents stay warmer, save on fuel bills and lower carbon emissions**

Southend-on-Sea City Council is urging households to check their eligibility for a new funding scheme to help them stay warmer in their homes, save money on their fuel bills and lower their carbon emissions.

The Sustainable Warmth Grant offers energy saving home improvements such as insulation, renewable heating systems and double glazing. The grant is funded by the UK Government and managed by Warmworks with support from Energy Saving Trust.

The scheme is designed to help those households most likely to be impacted by rising fuel bills and funding is available for homes on and off the gas grid. All installations will be carried out by TrustMark-approved installers.

Funding is available for homeowners and private tenants who live in a home with a low energy (EPC D or below) rating and have a household income of less than £30,000 a year, or unemployed and receive an income, health or disability benefit.

You can make an application by calling 0808 1968255. Lines are open Monday to Friday, 9am to 5pm (except public holidays).

## 2) National Corner

### Care worker numbers fall, leaving more people without support

The number of care workers in England has fallen for the first time, leaving more people without the support they need, new figures reveal. Unfilled care jobs rose by 52 per cent in a year, the fastest rate on record, according to industry body Skills for Care.

### Unused operating theatres

Lack of staff and bed capacity is leading to the NHS carrying out fewer operations and treatments than it was before the pandemic, despite a push to boost capacity. NHS England data shows that in the past year an average of nearly 254,000 inpatient treatments were performed each month –13 per cent lower than the year before the pandemic.

### Record routine treatment waiting list

The number of people waiting to start routine hospital treatment in England has reached a record high, with seven million on the waiting list at the end of August, according to NHS England. A total of 387,257 people in England have been waiting for more than a year to start treatment, meaning one out of every 18 people is waiting over 12 months.
